## Joseph Gandy Fatally Injured in Mine

**Crushed Beneath Cap Rock, Died Shortly After Being Extricated From Debris**

Going to work on the 4 p.m. shift at International mine last Friday afternoon, Joseph Gandy, well known miner of West Coleman, little thought he would not come out alive. The hazards of mining again took toll of a life, when a mass of cap rock and coal fell without warning on Gandy as he was working in Room 35, B level, York Creek district.

His working partner, Frank Horsey, was slightly injured, but was able to get Gandy from the mass of rock and debris before seeking help. Dr. Borden and others arrived as quickly as possible, but Gandy's injuries were so serious that he died before the head of the mine was reached. He was conscious and is reported to have given his rescuers a message for his wife, as he realized there was no hope of living.

He had lived here for about ten

years, and his mother lives in Fort William, Ont. He is survived by his wife and one child. Gandy was an industrious worker, and ambitious.

The funeral on Monday was attended by a very large number of people from the Pass towns, the lodges represented being First Catholic Slovak Lodge, Polish Society, Catholic Sokol Lodge, National Slavonic Society, Moose Lodge and the Miners Union. Bellevue band headed the procession playing the Dead March, and service was held in Holy Ghost church, Rev. Father Lehman officiating. Interment was in the Catholic cemetery.

At the inquest held on Saturday evening, a verdict of accidental death was returned. The jury were P. Smith, E. Ledieu, R. Laslett, J. Griffiths, Frank Celli, W. Morris; coroner, A. J. Kelly of Blair more.

### Card of Thanks

Mrs. Joseph Gandy desires to thank all who so kindly sent flowers and who loaned cars for the funeral, Father Lehman, the various lodges and Bellevue band, and others for their expressions of sympathy in her bereavement.

## Tennis Club Tournament

With 80 entries for the Victoria Day tournament, it would appear that Coleman has plenty of tennis enthusiasts. Some games were played on Saturday and Sunday, with the big day on Monday. To make things more pleasant and inviting, tea was served at the club house on Monday afternoon, and the courts were the centre of local interest.

As the matches are not yet finished, a report of the winners will not be available till next week.

### HOSPITAL NOTES

J. Clark is making good recovery from an anemic condition, and is looking greatly improved since entering hospital. John Drychich of Summit mine works in with a poisoned hand. John Nieborowicz is making rapid recovery and M. Micherolo is recovering from an operation.

### IN MEMORIAM

In loving memory of William Wilson, killed May 28th, 1929.

This day brings back sad memory.

Of a loved one laid to rest.

—Inserted by Mrs. and Mrs. Eph. Hill and Mr. and Mrs. Ernest Hill.

In loving memory of dear husband and daddy, William Wilson, who was killed at the International mine on May 28th, 1929.

Loving thoughts, true and tender,

Just to show we still remember.

—Inserted by his Wife and Daughter.

### Letter From Board of Public Utility Commissioners re Water Rates

The following has been received by the Town of Coleman from their solicitors, addressed to them by the Utilities Board, concerning the rate set in the franchise for watering of lawns:

Edmonton, Alta., May 18, 1931.  
Messrs. Ford, Miller & Harvie, Barristers, Calgary, Alberta.

Dear Sirs:—

Re: Town of Coleman and Coleman Light and Water Co., Limited.

In reference to your letter of the 15th instant, I am directed by the Board of Public Utility Commissioners to say that it has had under consideration the question of a reduction in the Company's rate for lawn watering and it has not been able to see its way clear to make the reduction suggested. The service in question is one that, from a comparison with the charges in other water systems, is not excessive. There is again, the fact that this season has been marked by its lack of rainfall up to the present time and it is quite probable that during the latter part of the season, the Company will have to resort to pumping in a much greater degree than in ordinary years.

It is probable that the Company will make some arrangement whereby payment of the \$5.00 charge may be made by instalments and this may help the consumers to some extent. However, in the main, the Board's reason for not reducing the charge is that, in its view, the present charge is reasonable considering the service rendered.

Yours truly,

G. A. THIBAULT,

Secretary.

## TOWN OF COLEMAN

### Tax Recovery Act

Notice is hereby given, that, under the provisions of The Tax Recovery Act, 1929, the following lands will be offered for sale, by public auction to be held in the Town Hall, Coleman, Alberta, on Wednesday the 17th day of June, 1931, at the hour of 10.30 a.m.

Lots	Block	Plan
6	C	2446 A
5, 6, 7	H	"
18	I	"
11	J	"
3	4	820 L
9	7	"
25	9	"
13	11	"
8	22	"

Each parcel will be offered for sale, subject to a reserve bid, and the reservations contained in the existing certificate of title. Terms, cash, unless otherwise arranged.

Redemption may be effected by the payment of all arrears of taxes and costs, at any time prior to sale.

Dated at Coleman, this 26th day of April, 1931.

James Ford,

Secretary-Treasurer

## Council Defers Action on Crows Nest Park

**Mayor States Reason of Not Appointing Town Planning Commission is Fear of Expense**

The council at a meeting last Thursday decided not to proceed further with the appointment of a town planning commission. The provincial parks commission will not undertake any action unless a local town planning commission is appointed. Mayor Moore recently requested the president of the Board of Trade to communicate with the parks commission to find if there was a possibility of work being undertaken to furnish unemployment relief. The reply was that it would be necessary first for the town council to appoint a local commission.

The Board of Trade nominated its appointees on the local commission, but the council did not appoint two from the council. The consequence is that the proposal is shelved for the present, as the Board of Trade cannot obtain co-operation of the provincial parks commission unless a local committee is appointed.

Prominent members of the Board of Trade are of the opinion that the establishment of a provincial park and necessary accommodation for the increasing tourist trade and other facilities at the lake would be a benefit in many ways, as it would tend to increase local business during the summer months.

The town council hesitates to consent to the appointment of a town planning commission because of the expense which will be incurred. The result is that there will be no likelihood of work being undertaken this summer on the project, so that work for unemployment relief is out of the question as far as the park proposal is concerned.

### Victoria and Empire Days

Some still make the error of calling May 24 Empire Day instead of Victoria Day. Empire Day is a school observance day for patriotic exercises in the schools of the self governing Dominions of the British Empire, and May 23 is set apart for this. May 24 is in observance of the birthday of the late Queen Victoria, hence its name. In Canada it is a national holiday, but in England it is not observed as such.

## Local News

S. B. Ryan of the International office spent the holiday in Calgary.

Frank H. Graham and H. T. Halliwell motored to Lethbridge on Sunday.

Mr. and Mrs. T. Bowen enjoyed a visit from a number of relatives and friends over the holiday.

Remember the whist drive on June 4 in the Catholic parish hall. Admission 35c.

Shop where you are invited to shop. Every advertisement is a printed invitation to you.

Miss Gladys McKay of Calgary and Hubert Clark of Taber were holiday visitors at Mr. and Mrs. Harry W. Clark's.

Mr. Shevels of Bellevue will conduct the services at the United church on Sunday at 11 a.m. and 7 p.m.

Mr. and Mrs. H. C. McBurney left on Wednesday evening's train for a two months visit in Eastern Canada.

Hubberlin's Million Dollar All-Canada Sale, 20 per cent off. You save \$5.90 on a regular \$29.80 suit—now \$23.60, at G. Neill's. Up to date men's store. This applies to all fancy worsteds and beiges—1

## Local News

Miss Gladys Lee came up from Lethbridge to spend the holiday week end with her parents, Mr. and Mrs. Wm. Lee, Sixth street. Mr. and Mrs. A. M. Morrison motored to Vancouver, leaving on Thursday afternoon, and it is reported they reached Vancouver by midnight on Friday.

Miss Milda Bond of Blairmore and Miss Ella Celli, Coleman, will be in the graduating class of Holy Cross hospital, Calgary. Exercises will be in Al Azhar temple, Tuesday.

Rev. and Mrs. A. E. Larke returned from a three weeks vacation trip on Monday evening, having made the trip to Vancouver and return by car.

Mrs. Fred Antrobus and Freda attended the Alberta musical festival in Lethbridge. Freda was awarded third place in the primary piano class for pupils under 11 years, and the adjudicator said she had good style and pleasant touch.

Charles Chardon, formerly of Macleod, is assisting Andy Bordula in Coleman Service Garage. Formerly an airman, he came from Paris several years ago, and is an expert in automobile repair work. So, when your car refuses to move, consult Coleman Service Garage and they will soon have it on the move.

## Baseball Boys Lucky Day Was Monday

**Won Baseball Tournament at Cowley and Have Big House at Their Dance**

Triumphing over all comers—Bellevue, Blairmore and Hillcrest—Coleman ball team batted themselves to victory in a hectic series of games, when they made a thrilling recovery from the low end of the score with Hillcrest to emerge winners by a margin of 6-5. The first prize of \$50, minus entry fee, helped to swell the club's bank account, and with a profit of \$90 on the dance in Coleman open house, the boys felt they had a lucky break.

Some new equipment will be purchased by the boys as a result of their good luck and skillful play. Coleman line up—Richards c., Kapalka p., Haycom 1st b., Atkinson 2nd b., Patterson s.s., McLeod 3rd b., Fraser r.f., Joyce l.f., Emerson i.f., Jenkins o.f.

Mr. and Mrs. O. E. S. Whiteside spent the week end at Lethbridge. Lt. Col. Barnes accompanied them to the city, and remained over to take part in the golf tournament of the Crows Nest Pass Association, in which there were 120 entries.

### The West's Besetting Sin

If there is one besetting sin indulged in by the people of Western Canada it is the sin of impatience. Living in a new country, a country which fifty years ago was given over to roving bands of Indians and immense herds of buffalo, our people today, expect and demand all those services and conveniences which it has taken centuries to build up and develop in older lands. It is a good fault to want the best there is in life for our children; it is a laudable ambition to work to secure such things; a proper spirit of discontent is all right, provided it is a proper spirit.

But in a vast extent of territory over which population is as yet thinly spread, where the element of time has not yet permitted that degree of productive development which leads to the accumulation of certain reserves of wealth, for people to expect to enjoy all those things which it is possible for older countries of large populations and centuries of accumulations to provide for their people, is not reasonable. Whatever we have must be paid for, and if in the West we have not sufficient people nor sufficient wealth to pay for what we want, we must of necessity go without until such time as we are able to provide it. And to be discontented with our lot in the meantime is neither reasonable nor right.

For example, Good, all-weather highways to serve all parts of Western Canada is the desire of everybody; it is a laudable desire. Efforts to realize it are being put forth, but people are impatient, and demand still larger programmes of construction, notwithstanding the fact that it is taxing their resources to the utmost to pay interest charges on past construction and finance the carrying out of existing programmes of new construction.

There is nothing to be gained, and much to be lost by having the whole country criss-crossed with good roads, provided with telephone and electric power services, equipped with churches, schools and hospitals, and other services and conveniences now so generally regarded as necessities, if as a result of providing them the burden of taxation is so heavy as to drive the people of their land. All these things are worse than useless if the people cannot maintain an existence to enjoy them.

To cite another example. Within the past two years there has been erected and equipped, in the Province of Saskatchewan, three technical schools, one at Regina, a second at Moose Jaw, less than 50 miles distant, and a third at Saskatoon, 150 miles away, each of which has cost half a million dollars, or a total of \$1,500,000. This large expenditure for purely technical education has been made in a Province where over 70 per cent. of the population lives in rural communities, and where constant stress is laid on the importance of educating the youth to remain on the land.

The point is, that technical schools are not good and desirable things. No, the point is, we are not aiming to provide these good things before we can afford to do so, and, to the extent that we mortgage our future in this way, are we not crippling our own efforts to provide and maintain something else much more essential and which would benefit a much larger percentage of all the people who have to bear the taxation burden? Are we not trying to ape other and older lands in our impatience to have everything they have, which no doubt they can afford now after long decades of growth, but which we cannot afford because we are not numerous and wealthy enough to carry the resultant financial burden.

Few men and fewer women there are but would like to live in a better house than they now occupy, if they could afford it, but knowing they cannot afford it they make the best of what they have. Many of them could have the finer house of their dreams if they were prepared to mortgage their future for it, and, while living in it, denied themselves other things and lived in a state of worry over the payments to be made.

The country is just an aggregation of individuals. They can have those things they are impatient to possess largely because other countries have them, but if in their impatience, and unwillingness to wait until they occupy much the same position as those others who can afford these good things, they plunge ahead and get them, then they must not be impatient of the taxes they are called upon to pay, nor resentful if, being unable to pay, they lose all they have accumulated in years gone by.

It is in times like these that heed should be given to such matters. The present is hard for most people, and in no small degree because of the mistakes of past, made individually and collectively. This present depression will pass; good times will come again. We must willingly be patient now. But will the old impatience come back with renewed force? Will we as a people still insist on running before we really are able to walk? If so, we will stumble again and fall once more.

### Greetings To Boy Scouts

Stirring Messages Sent Out From Earl Beasborough and E. W. Beatty

Stirring messages went forward recently to the Boy Scouts of Canada. One was from the Earl of Beasborough, Governor-General of Canada, on his assuming the position of chief scout for the Dominion. The other was from E. W. Beatty, president of the Canadian Pacific Railway, who recently became the first president of the Boy Scouts Association.

The Governor-General said: "I am eagerly looking forward to having many occasions for becoming acquainted both with Canadian scouts and Canadian scouting and of observing their progress." He was pleased that Mr. Beatty had consented to undertake the duties of president of the association.

Another name for a good citizen is "a good scout" wrote Mr. Beatty. "It is gratifying to think that so fine a movement as that of the Boy Scouts has captured the imagination of the youth of the world and has become so truly international." He said that Canada it is peculiarly fitted, as the campfire which it teaches is so well suited to our geographical conditions. Nothing could be better than its gospel of self-reliance, self-respect, unselfishness and the pledge to help others whatever it may cost.

### SAVED IMPORTED DRESS

"After a little wearing, a lovely green—almost a brilliant dress—lost color so completely that it was not wearable. A friend who had admired it asked me why I wasn't wearing it any more. On hearing the reason, she advised dyeing it, and I followed her advice. I dyed it with Diamond Dyes. To make a long story short, it turned out beautifully. I have a lovely new dress that really cost just 15c—the price of one package of Diamond Dyes."

I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer but I never have a failure with Diamond Dyes. They seem to be made so they always go on smoothly and evenly. They never stop, streak or run; and friends never know the things I dye with Diamond Dyes are redyed at all.

Mrs. R. F. Quebec.

### Unusual Cafe In London

Automatic Machines Will Serve Meals

In Record Time

Five-minute meals will be the order of the day when London's latest speed restaurant is opened in the Strand. No dish will cost more than sixpence, and all food will be served through automatic machines. Sliced plates will be slipped into letter-box like slots, and there is an ingenious arrangement by which customers can wash and sterilize their own glasses. "Soft" drinks, supplied through automatic machines, may be aerated if desired.

Customers simply slip their still drinks into a little machine, press a button, and the "still drink becomes sparkling."

Because of regulations alcoholic beverages cannot be supplied through an automatic machine, and a barman has been employed to look after this department. Here, also, the highest price will be sixpence.

The restaurant is to be open day and night, week days and Sundays.

### World's Smallest Dog

The world's smallest dog is said to have been acquired by the Maritime Museum. It is a dwarf brown and white pointer, and although it lived for three years it never grew longer than six and half inches from nose to tail tip. His head was one and a quarter inches long and an inch broad, and his hind legs were slightly less than two inches long.

**Asthma Is Torture.** No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know, however, from experience how immeasurable is the relief provided by that marvelous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

**Well-Protected Animal Park.** Elk Island National Park in Alberta, which contains one of the Government buffalo herds, is entirely surrounded by thirty-four miles of nine-strand buffalo-proof wire fence; fireguards, sixteen feet in width, are ploughed about the park, both internally inside and outside the fences.

Someone has succeeded in carving 100 words on a grain of rice. We are in hopes it includes directions as to how to cook it. So few people can cook rice.

"Bumpy" air shocks an aeroplane harder than the bumps of fast landing, tests show.

W. N. U. 1891

### The Child Grows and Matures

Necessity Of Careful Training In Early Childhood

(By John Burke Ingram.)

I once knew a boy who was unreasonably afraid of a policeman. Unreasonably because he was a good little boy and his family were decent people. One day that little boy's grandmother told him a story about another little chap who got lost and of how a policeman on the boat found him and took him home to his mother. The little story completely destroyed the child's fear of policemen. It made him ready to understand that the policeman was on "his side" and his duty was to protect him and his mother and father against people who were not willing to behave themselves.

I introduce this question because it illustrates the necessity of teaching a child carefully, if he is to be a healthy citizen and a good citizen. There are so many things the parent should do, simple in themselves, if he or she will only take the trouble to do them, it may assist the growing child to be both.

Lying is a problem, and many a conscientious mother has had her heart almost broken because little Bobby sees all sorts of horrible accidents and sees tigers walking down the street, and, perhaps, if he is a belligerent, the boy, is continually thrashing six big men on the way home from school. Lies like that, however, are, in the main, quite harmless and if it were not for this capacity for harmless lying, there should be no books written, nor pictures painted, nor letters written. Of a different story however, is the lie which is told to avoid punishment, or to secure some favour, a personal lie in other words, and these must be guarded. It is easy to draw a distinction between a "fairly tale" and a "wicked lie," and in combating the lie a positive worship of truth may be included as a preventive. Stories of men who refused to lie even if it meant pain or death, will be listened to eagerly for children are natural hero-worshippers and it is a good thing if a parent has imagination enough, and interest enough to place worthy objects of hero-worship in the mind of the youngster. We are getting away from our old ideas that children should be seen and not heard, and that a child should never have his own way. We feel that a child should have its own way just as a growing plant has its own way, to push its head toward the sun. But once again, to remain for a moment in the vegetable kingdom, as the tree is bent the twig's inclined, and a really tactful and understanding parent can get a child's efforts into the right channel, and a tactful parent and a youngster will scarcely realize that it is not his own ideas that he is carrying out.

### Recipes For This Week

(By Betty Barbery)

#### GOLDEN COCONUT SHORTCAKE

8 thin slices sponge cake.  
 Orange sauce.  
 3 oranges, sections free from membrane.

½ can coconut, southern style.  
 Allow two slices sponge cake for each serving. Place first slice of sponge cake on plate, cover with orange sauce, orange sections, coconut and additional orange sauce. Cover with second piece of sponge cake and top with orange sauce and orange slices. Sprinkle with coconut. Garnish with whipped cream around base if desired. Serves 4.

#### STRAWBERRY WHIP

1 package strawberry - flavored gelatine.  
 1 cup boiling water.  
 4 cup strawberry juice.  
 1 cup strawberries, crushed and drained.  
 ½ cup sugar.

Disolve gelatine in boiling water. Add strawberry juice. Chill. Whip slightly thickened, beat with rotary egg beater until of consistency of whipped cream. Fold in strawberries and sugar. Turn into mold. Chill until firm. Unmold. Serves 8.

**It Bids Pain Begone.**—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

**An Odd Electrocution.**  
 Physicians at Pergus Falls, Minnesota, said that Wilbur Thompson, 30, highway workman, was killed by an electric shock, although his body did not come in contact with any electricity. Thompson was driving a grad-tricycle machine beneath a heavily charged power wire on a highway near here. The current jumped from the wire to the metal button on Thompson's cap and electrocuted him.

## Serious Rectal Troubles Often Caused By Harsh Cathartics

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, morning or night, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

**ENO'S FRUIT SALT**

### Better Fire Protection Needed

More Organized System For Rural Districts Is Stressed

A more organized system of fire protection in rural districts was urged recently by David J. Price, of Washington, D.C., chief engineer of the Bureau of Chemistry and Soils, U.S. Department of Agriculture, addressing the annual convention of the National Fire Protection Association in Toronto.

Fire loss on farms in the United States last year, was the greatest ever experienced, he declared. From data available, it appeared that farm fire losses increased 25 per cent. during the 1930 season drought, he said. The loss for the year was estimated to be in excess of \$125,000,000.

Spontaneous heating and ignition of agricultural products constituted, he said, one of the prominent causes of farm fire loss.

### Largest Persian Rug

What is said to be the largest Persian rug in the world is rapidly taking shape in New York. It is being built for the main lobby of the new Waldorf-Astoria Hotel and will be more than 70 feet long and nearly 50 feet wide. The design to be followed is that of a Persian garden.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they act tonically in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

### Protection For Miners

Safety caps and safety shoes are soon to be added to safety lamps as standard equipment in the Cape Breton collieries. The caps are of metal and are designed to protect the head from frequent bumps. The shoes will protect the feet from falling stones.

One reason why the scenery seems more wonderful in Europe is because you don't have to read it.

### Canada Should Have

Right To Amend Constitution

Conference With Provinces May Be Called To Discuss This Matter

A resolution declaring that Canada should have the right to amend her own constitution, moved in the House of Commons, brought from Hon. Hugh Guthrie, Minister of Justice, the statement that he favored a conference with the provinces on this important matter. Before calling a conference, however, he thought that a committee of parliament should be appointed to consider this question.

"I am by no means hopeless of the situation," Mr. Guthrie declared to the House. "I am entirely hopeful, and I think it would be well for this parliament, if not at this session, at some subsequent session, to appoint a committee especially charged with the consideration of this question. We must prepare our case here before we call a conference, and it is a case that will require a great deal of preparation."

"After preparation had been made," added Mr. Guthrie, "I shall heartily favor the summoning of a provincial conference with the Dominion authorities to see what plan can be worked out so that in the future this parliament may be able to make the necessary amendments to our constitution."

### Receives Medal

Wing Commander Charles Kingsford-Smith was awarded the Oswald Watt medal for the most conspicuous feat performed in 1930 by Australian-born fliers. The Australian Aero Club selected him for his flight from Dublin to Harbor Grace, Newfoundland, last June.

### REMNANTS

REMNANTS—3 lbs. Prints, \$1.00; 2 lbs. Silk, Velvet or Cretonne, \$1.00. Agents, dealers wanted. A. McCreery Co., Chatham, Ontario.

### REPRESENTATIVE WANTED

Would you like to be the local Representative for fast selling household necessities? Write Clarence Cameron, 89 Wellington St. E., Toronto, Ont.

### Rubber Lining Protects Steel

Perfect Surface Resists Abrasion Under Most Severe Conditions

When chemists discovered a method for attaching a rubber lining to a metal surface, they presented a new and valuable material to the chemical engineer. It is used in tanks, pipes, pumps, and so forth, in which he handles corrosive liquids. The rubber lining effectively resists the action of acids which would soon eat through the steel. Now this process of attaching a rubber surface to metal has been perfected to a degree which encourages its use to resist abrasion in some of the most severe service conditions imaginable.—Popular Science.

Italy has a football craze.

### Dust Explosions

Warning Is Given Of Danger Lurking In Talcum Powder and Cornstarch

Don't light a cigarette just after using talcum or any other powder. Never leave the cornstarch bag where they are likely to fall. That is, if you want to avoid the chance of an explosion.

These hints on dust explosions were given recently by David J. Price, chief engineer of the United States Department of Agriculture, who was a delegate to the annual convention of the National Fire Protection Association in Toronto.

He was pointing out that dust explosions were not confined to grain elevators as was commonly thought.

### Was Weak and Run Down

Could Scarcely Do Housework

Mrs. Edward A. Allen, Beranston, Alta., writes: "I would like to tell you of the great benefit I have received from your Milburn's Heart and Nerve Pills. I was feeling very much run down in health, and was weak I could scarcely do my housework. In fact, I would have to lie down in the afternoon for an hour or so. I saw your Pills in the drug store and took a box home with me, and was delighted with my renewed strength. I have recommended them to my neighbor and feel sure they will help her too."

Price 50c a box

Sold by all drug and general stores, or mailed direct on receipt of price by The M. Milburn Co., Ltd., Toronto, Ont.

### Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Wax Paper. Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Western Representatives:  
**HUNTER-MARTIN & CO., REGINA, SASK.**

## FREIGHT RATES FORM SUBJECT OF HOUSE DEBATE

Ottawa, Ont.—Alleged discrimination against western shippers as a result of difference between domestic and export freight rates formed the subject of debate in the House of Commons. The matter was brought up by Thomas Reid, Liberal member for New Westminster, on a government motion to go into supply.

Mr. Reid continuing his speech, wound up with an amendment calling upon the House to declare in favor of fixing an early date for the cabinet to hear the petition against the prevailing domestic rates, and from the provinces of Alberta, Saskatchewan and British Columbia.

An amendment to supply is equivalent to a motion of want of confidence, and consequently could not be accepted by the government. This was made clear by Rt. Hon. R. B. Bennett, Prime Minister, when he followed Mr. Reid in the debate. The Premier reviewed briefly the history of the last appeal to the Privy Council against the judgment of the Railway Commission on the rates.

The appeal, heard by the government of Rt. Hon. Mackenzie King in 1929, had not been decided at the time of the last election. The election resulted in defeat for the King administration, and consequently the appeal remained undecided. It was the intention of the present government to hear it at as early a date as possible.

A. W. Neil, Independent member for Comox-Alberni, stated that he had raised the question in parliament six times. There should be no difference between export and domestic rates. H. J. Barber, Conservative, Fraser Valley, remarked that the Liberal Government had done nothing during its nine years in office to remedy the situation. The present government could hardly be blamed for failure to take action during its short tenure of nine months.

From the maritime provinces, Hon. P. J. Violett, Liberal member for Gloucester, urged reduction in the present domestic rate from Winnipeg to the maritime provinces. The rate from Winnipeg to Saint John was too high, he said. With a proper domestic rate, New Brunswick would have two large flour mills, he said. G. G. Coote (U.F.A., MacLeod) said the proposal for reduction in domestic rates had in respect to grain, the unanimous approval of the U.F.A. members. A resolution to this effect had been passed at the last annual meeting of the United Farmers of Alberta and, in fact, had been passed annually for the last eight or nine years.

"Would the honorable member suggest," Mr. C. C. Tison interjected, "the abolishing of the House of Railway Commissioners and the making of freight rates in this House?"

"No," Mr. Coote answered. "I would not go that far." But, he added, some decisions of the board were hard to understand.

W. J. Loucks (Conservative, Rose-town), said he believed the time was ripe for a reduction in domestic rates. Something should be done; and in view of the remarks of the Prime Minister he thought something would be done.

## Conference May Be Delayed

Prime Minister Hints At Postponement Of Meeting In August

Ottawa, Ont.—The possibility of some delay in the holding of the Imperial Economic Conference at Ottawa was suggested in the House of Commons by Rt. Hon. R. B. Bennett, Prime Minister. In answer to a question by Hon. Ernest Lapointe, former Minister of Justice, Mr. Bennett said that it had been the intention, if possible, to hold the conference some time in August. There was, however, the possibility of elections in both New Zealand and Australia, which might cause a difficulty. He promised to inform the House when he had definite information.

## Plans For Conference On Unemployment

Mayor Of Winnipeg Proposes Meeting Of Manitoba Civil Officials

Winnipeg, Man.—Mayor Ralph L. Webb, of Winnipeg, has outlined a proposal for a province-wide unemployment conference. Mayors of cities and towns and Reeves of municipalities will be invited to attend the parley. Concrete proposals to aid unemployed next season would be laid before the provincial government. Mayor Webb said in the meantime, he intends to call a meeting of representatives of greater Winnipeg municipalities.

## Gold Rush Continues

Many Claims Already Staked In Fife Lake District

Fife Lake, Sask.—The "rush" to the Poplar Creek bed, six miles southeast of here, and on towards Coronach, continues and many claims have been staked.

According to information received, M. Bennett, a farmer opposite the M. Woolfin farm, two years ago sent samples of the dirt to Los Angeles to be assayed, and received a reply that there were traces of gold. T. Larson, one of the men interested in the purchase of the Woolfin farm, is reported to have sent samples recently to Los Angeles, and to have been informed that the dirt he sent contained gold running from \$2 to \$20 a ton.

Fife Lake is almost directly south of Moose Jaw, about 90 miles, located in range two, about ten miles from the international border line.

Men familiar with the district, who have explored it, claim there are heavy deposits of iron pyrites in the formations in the hills and along the beds of the Poplar, Horse and branches of Frenchmen's creeks.

So far no gold is known to have been taken from the places where claims have been staked during the past two days.

## Stiff Sentences For Reds

Revolutionists In Indo-China Given Long Prison Terms

Paris, France.—A Havas despatch from Hanoi, French Indo-China, says long prison terms have been given Communist revolutionists following a three-day trial at which it was revealed that Communist plots in Indo-China were directed from Canton.

The chief of the Saigon Communists was sentenced to life imprisonment for participation in the assassination of a native foreman of the French administration. Five others were given 20 years, seven were sentenced to 15 years and 45 from five to ten years.

An alleged plot to assassinate Governor-General Aquier at Saigon was revealed during the trials.

## British House Refuses To Legalize Lotteries

Application To Introduce Bill Defeated By Large Majority

London, England.—House of Commons came down hard on advocates of legalization of lotteries in support of hospitals, defeating by 181 to 58 an application by a Conservative member for leave to introduce a bill authorizing the operation of such lotteries.

There has been considerable agitation in favor of loosening up the laws in this respect in view of the great sums which have gone out of the country into horse races, Hospital Sweepstakes on Irish races, while charitable institutions at home need money.

## Private Members Restricted

If Motion By Premier Bennett Is Approved

Ottawa, Ont.—Private members have had their last entire day in the House of Commons during the present session. If a resolution placed on the order paper by Premier R. B. Bennett is approved.

Mr. Bennett's motion provides that on and after Monday, May 25, and all subsequent Mondays till the end of the session, government business shall be transacted. After the resolution is approved, there will remain only one hour on Tuesday evening and one hour on Friday evening, for consideration of private members' legislation.

## Figures On Butter Imports

Total For Three Months Was 2,148,494 Pounds

Ottawa, Ont.—Total imports of butter from all countries into Canada from February 1 to April 30, 1931, were 2,148,494 pounds, stated Hon. C. H. Cahan, secretary of state, in the House of Commons. Rates of duty collected were 8,462 pounds at 14 cents per pound; 57,176 pounds at 12 cents per pound; 388,440 pounds at eight cents per pound (less ten per cent.); and 1,683,416 pounds at one cent per pound. New Zealand butter was imported to the total of 286,440 pounds, and Australia's 1,683,416 pounds.

## Duty On Cucumbers Fixed

Ottawa, Ont.—An extra issue of the Canada Gazette gives notice that the value for duty of cucumbers has been fixed at seven cents per pound when entered under the intermediate or general tariff, such value to be computed on the weight as imported, weight of the package included.

## System Of Credits

Will Be Discussed

Premier Bennett Suggests Matter Be Referred To Banking Committee

Ottawa, Ont.—The question of setting up a system of intermediate credits for agriculture will be considered and discussed, in the light of knowledge possessed by the government respecting the \$5,000,000 revolving credit corporation, before the banking committee of the House of Commons.

Unanimous decision favoring this action followed the introduction of a proposal in the House by W. T. Lucas (U.F.A., Camrose), for "consideration" of some system of intermediate credits; and a statement by Rt. Hon. R. B. Bennett, Prime Minister, suggesting that the whole matter be referred to the banking and commerce committee. Mr. Lucas had expressed his belief that the \$5,000,000 corporation would not take care of the situation among western farmers.

The government could not set up a system of intermediate credits for agriculture, it might co-operate with the present \$5,000,000 plan and subscribe dollar for dollar with the other subscribers.

"If the Hon. Member," the Prime Minister stated, "will move that resolution be referred to the committee on banking and commerce, I think that would serve a very useful purpose; and discussion could take place in the light of knowledge which we have as to the proposed operations of the credit organization to which I have referred the other day. The experience in the United States in connection with a similar organization was that practically only ten per cent. of the amount subscribed was used."

## SAYS CUT IN WHEAT ACREAGE WILL NOT HELP

Toronto, Ont.—Not reduction of wheat acreage in Western Canada but the co-operation of every industry, financial institution, and the transportation systems of the Dominion was necessary, if the present Canadian business depression and wheat crisis were to be solved to any degree, said Hon. Frank Oliver, advisory officer of the Board of Dominion Railway Commissioners, addressing the Transportation Club here.

Failure of the crop this year, he said, would only increase depression, although it would benefit the Wheat Pool, the banks and the provincial governments which had guaranteed the pool advance. The Prairie, he said, must continue to be wheat producers for the time being. Through succeeding years, he declared, Canada's wheat acreage must be reduced if it was proven conclusively that the world was suffering from chronic and not acute over-production.

"Our recent great attempt at mass action in marketing has proved a colossal failure," he contended. He was convinced, he said, "that there is a fight on, that it is a world struggle and that every legitimate business interest in Canada is concerned in aiding the western farmer to hold his place and Canada's place in the wheat markets of the world so far as that is economically possible."

"Our recent great attempt at mass action in marketing has proved a colossal failure," he contended. He was convinced, he said, "that there is a fight on, that it is a world struggle and that every legitimate business interest in Canada is concerned in aiding the western farmer to hold his place and Canada's place in the wheat markets of the world so far as that is economically possible."

## LITTLE TRAVELLERS MADE LONG JOURNEY

Unperturbed—these three little travellers, Anton, Helena and Josef, aged 3, 4 and 7 respectively, who travelled unaccompanied all the way from Canada Pacific Winnipeg Depot. Later they continued their journey to join their father, P. Licka, at Coleman, Alberta.

## WITH POLAR FLIGHT

Lady Grace Drummond Hay, English writer, who, it is announced, will accompany the Graf Zeppelin on its projected flight to the North Pole, and will be the first woman in history to be a member of an expedition to the top of the world.

## Will Carry On

Premier Henry, Of Ontario, To Apply Himself To Tasks On Hand

Toronto, Ont.—"I intend to carry on with the task passed to me by the former leader, who was so overwhelmingly endorsed by the people of this province 18 months ago," said Hon. George S. Henry, premier of Ontario, and successor to Hon. G. Howard Ferguson, in an interview with the press. "The people are desirous of forgetting elections and forcing their governments apply themselves as their trustees during the present trying times," he said.

## Questions Must Be Answered

People Called Upon To Give Census Takers All Information

Ottawa, Ont.—All persons in Canada are called upon to answer the questions of the census-takers who will start making their rounds in June, in a royal proclamation issued in the Canada Gazette. Attention is called to the fact that the information obtained in the census can be used for statistical purposes only and not for taxation, military or jury services, or the enforcement of any law, provincial, municipal or federal.

## Select Title For Book

Portage la Prairie, Man.—The title of the book published by the Old Timers' Association of Portage and district was selected by the historical committee on Saturday, May 16th, "The Trail of the Pioneers," the title suggested by Mrs. M. G. Tidbury, High Bluff, was chosen. Several letters were received from those residing in Winnipeg who took a keen interest in the award.

## Trans-Atlantic Flight

Sydney, N.S.—Indications that Miss Ruth Nichols may make Cape Breton at least an emergency stop on her proposed trans-Atlantic solo flight were seen today in a notification received by the Cape Breton flying club officials asking them to receive and transport to the airport three drums of special gasoline chosen by Miss Nichols for her ocean voyage.

## Eight-Hour Day Debated

Matter Brought Up In House By Hon. Peter Heenan

Ottawa, Ont.—Once more, the House of Commons debated the question of establishing the eight-hour day throughout the Dominion, and once again constitutional difficulties were cited as a bar to any immediate action in this respect.

Hon. Peter Heenan, former minister of labor, and Liberal member for Kenora-Rainy River, brought the matter up. In a resolution setting forth that Canada is a signatory to the Treaty of Versailles "thereby subscribing to the principle of a maximum working day of eight hours," Mr. Heenan called upon the government to take steps to insure the fulfillment of treaty obligations relating to hours of work.

Although Hon. Hugh Guthrie, Minister of Justice, intimated that the government had no objection to the resolution passing, it was still under discussion when the House adjourned. It therefore comes into the category of private members' legislation, which has been "talked out," and will probably not be discussed again during the present session.

## For Transporting Opium

Hamilton Chinaman Receives Heavy Sentence When Found Guilty

Hamilton, Ont.—After hearing the crown outline its case before Judge Thomson in county criminal court, here, Lee Wong, local Chinese, charged his plea from not guilty to guilty on a charge of transporting opium. He was sentenced to five years in Port Arthur penitentiary, and was fined \$1,000.

E. J. Murphy, K.C., for the crown, stated that a man named Lee Hee had been found in Regina with five large tins of opium which he confessed to securing from Lee Wong, Detective-Sergeant Ganeth, of the Royal Canadian Mounted Police, had found that shipments were being made by Wong to the Sun Sun Company, of Regina, which was Hee's concern.

## Again Holds High Position

Humble Miner Heads General Assembly Of Church Of Scotland

Edinburgh, Scotland.—James Brown, the humble miner, who became a Labor M.P., once more was appointed Lord High Commissioner to the General Assembly of the Church of Scotland.

He and Mrs. Brown were installed again at Holyrood Palace, where they held a levee with all the pomp and dignity of royalty. Later Mr. Brown and his wife dined in semi-state with outsiders to St. Giles' Cathedral.

## BEAUHARNOIS POWER PROBE WILL BE HELD

Ottawa, Ont.—A committee of the House of Commons will investigate the Beauharnois Power Corporation, its various subsidiaries, and its scheme for development of hydro electric energy by the construction of a canal to divert a portion of the flow of the St. Lawrence River between Lake St. Francis and Lake St. Louis, in the province of Quebec.

This outstanding development emerged recently in the course of a debate in which the whole Beauharnois development was held up as a gigantic scheme to secure to private interests the entire flow of the St. Lawrence River at that point for power purposes.

Allegations of fraud, misrepresentation and improper dealing, charges that members of the Dominion Senate were interested in the power scheme, and insinuations that the Beauharnois Corporation had even gone so far as to attempt to corrupt members of the Quebec judiciary, featured a discussion which focused the attention of the House.

Frequent protests, demands for rulings by the chair on points of order, objections to bringing the judiciary into Commons debate, and heated interjections were features of an impromptu debate which held the stage for practically the entire day.

During the debate Premier R. B. Bennett declared "the engineers' report shows the Beauharnois Canal now under construction is larger than provided for in the order-in-council passed by the former government. In stating that the whole matter should be referred to a committee, Mr. Bennett informed the House he had been collecting information, and opinions of counsel, in detail, but he agreed with Mr. Gardiner that the canal was larger than provided for by the order."

## POLAND'S PLAN QUOTA BASIS FOR EXPORT WHEAT

London, England.—Divergent views are developing at the conference of wheat-exporting countries here. The United States delegation stands by its view first announced of non-participation in any international organization, against export quotas of wheat, and in favor of reduction of wheat acreage as the one way out of present difficulties. Russia has virtually joined the Polish and Danubian countries in favor of export quotas. And Russia introduced a new element which is likely to arouse opposition.

The Polish plan proposed quotas but did not attempt to fix any basis for the quotas. The Russian plan has not yet been published, but it is understood to propose that the average wheat exports in the five-year period immediately preceding the Great War should be taken as basis for the quotas. But such a basis is commented, would operate in favor of Russia and heavily against countries which, like Canada, have developed their wheat exports since the war.

The Russians are willing, like the Poles, to enter into a no-dumping agreement.

Conference observers are speculating on how a no-dumping agreement could be operated and made effective, and how a fair export price could be determined. This, it is observed, would be exceedingly difficult in the case of Russia. One Russian delegate, was, however, confident that if the conference can reach an agreement not to dump wheat there would be no real difficulty in implementing the agreement.

"I have no doubt," he said, "that ways can be devised for assuring that the country which agrees not to dump will abide by its word."

## More Building In April

Statistics Show Permits Were Higher Than During March

Ottawa, Ont.—Continued increase in building activity is shown in April figures for building permits. Returns to the Dominion Bureau of Statistics from 61 cities give an aggregate of \$13,786,000 for April, or \$3,879,000 higher than March. As compared with April, 1930, however, there was a decrease of \$3,191,000. Manitoba, Saskatchewan and British Columbia recorded increases as compared with March, 1931.

## Poultry Prevents Poverty

Greatly Aiding Canadian West In These Days Of Stress

Ottawa, Ont.—The humble hen is called "the greatest factor in aiding the Canadian west through these days of stress," says Fred C. Elford, Dominion Poultry Husbandman, following an official trip through to the Pacific Coast.

"It is poultry which is carrying things along," he declared. "For farmers have the feed on hand and are turning it into new laid eggs."

## Accepts Office Of Premier

Saint John, N.B.—Hon. Charles D. Richards, of Fredericton, accepted the office of premier of New Brunswick at the hands of His Honor H. H. McLois, in the province of Quebec. This follows the resignation of Hon. J. B. M. Baxter from the premiership's office to take a place on the Supreme Court Bench of New Brunswick.

## Titles Must Wait

Ottawa, Ont.—Rules of the House of Commons provide that only one resolution may appear on the order paper in the name of any one member. One resolution now stands in the name of Armand Lavergne (Cons., Montmagny), so his resolution asking his majesty to grant titles to Canadians must wait until the present resolution is disposed of.

## Another Loan For India

London, England.—Some surprise was created in the financial district by announcement of a six per cent. loan of \$58,000,000 for the government of India, which was issued at 100, redeemable in 1933 and 1934. The last loan was received with great success.

## International Silver Conference

Shanghai, China.—Chinese banking circles indicated the Nationalist Government was expected to inaugurate a movement seeking an international silver conference in China. T. V. Soong, Minister of Finance, was expected to lead the movement.

## Som ething to Think Over

The lawn watering contract has again bobbed up, and some are discussing the service because of the increased cost. One suggestion which a taxpayer asks to have published is that the council cut the high monthly cost of street lighting by having the lights turned off after midnight, or earlier on moonlight nights, and paying for the use of the hose by those who wish to keep lawns and gardens and there by help to beautify the town. The electric eye is apparently not functioning properly, as it switches the lights on too early and leaves them on too late in the morning, for an hour at least after daybreak. If we must practice economy, let's eliminate anything that is really wasteful, and utilize the money in a manner whereby it will benefit the taxpayers. Save on the street lighting and spend it on lawns and gardens; then we will feel better satisfied.—Con.

## NOTES AND COMMENTS

Most people have possibly received a chain letter at some time during their life. Usually the recipient is urged to make nine copies of it and forward to acquaintances. Failure to do so, the letter states, will bring down punishment or a serious reverse. If these chains were kept going it has been figured that postal systems throughout the world would have to greatly increase their forces. Figure how the constantly increasing groups of nine would multiply and multi-multiply, and you will find it would run into millions and billions. So, happily for the post-office, the chain often becomes broken and dies a natural death. Then someone will revive it, and after another spurt it will die. But still it comes back again smiling. It will as long as there are energetic people who will sit down and write nine copies.

It was the writer's pleasant experience to attend Empire Day exercises in West Coleman school last Friday. Here was to be seen an example of devoted work by school teachers in promoting Canadian citizenship, in inculcating ideals of loyalty and patriotism not only among children of Canadian born parents, but among those children whose parents came from various European countries. Here is a more forceful combative measure against destructive radicalism than suppression, which caused the thought to arise that peace hath her victories too. Such work is particularly valuable in a community such as this.

Unemployment relief work will end in this district when the roadwork east of Blairmore is completed. Effort to have work done on a proposed park site at Crows Nest Lake will be of no effect, as there is no local committee empowered to work with the provincial authorities. Governments invariably help those who are most active in helping themselves. And that is common sense.

The local board of trade executive has been urged on various occasions to interest the provincial government in setting aside a park reserve at the lake. The parks commission visited the place, advised the board to secure the appointment of a local town planning commission, and the matter would be further discussed. Now it is at a loose end as the council withholds action in the appointment of this local committee. So there you are! If the council wish to interest the government in unemployment relief, the next move is up to them.

Provide the facilities for people to do business and they will respond. A Lethbridge business man remarked that since roads leading to that city have been gravelled, people from long distances have made it their shopping centre, and parking space is at a premium on Saturday afternoon and evenings when the farmers come in. Lethbridge gains at the expense of the smaller towns.

It clearly demonstrates that the small town merchant must be on his toes to hold his local trade. He must face the same keen competition as the city stores, and must make his appeal to the buying public just as forceful. Wherever there is a community of buyers, there are opportunities to do business. The most attractive displays and price appeals are bound to secure business. Competition is keen, and though in quiet times some will resort to any price to get business, yet those who will endure are those who seize every opportunity to encourage and develop local trade. It requires very close application to business, the utmost vigilance and promotion of good will, but opportunities exist for the small town merchant who is alive and aggressive, and who recognizes the force of modern advertising. Those who are not will ultimately fade out of the picture.

One writer gives a new slant on the period through which we are passing. He claims it will correct many evils, and business will eventually be established on a much firmer basis. Too much credit, the purchasing of luxuries on instalment plans, buying beyond the ability of the individual's earning capacity, are just a few of those things which have contributed to present difficulties. Still there are those who would rather own a car than keep their credit good for the necessities of life. No wonder automobile manufacturers' count their riches by the millions, while retailers ponder how they are to collect from many who ride in style and pay cash for gasoline.

Spend as you earn, and mortgage the future, has made the few rich at the expense of those who yielded to the efforts of high pressure salesman. Who is to blame? Too many automobile tastes on wheelbarrow salaries.

Generally speaking people can live in the way it suits them, but as the old saying goes, you can't eat your cake and hold it too.

## The Census of Canada 1931.

In the opening weeks of June every family and every home in Canada will be visited by a representative of the Government for the great national purpose of taking the seventh census of Canada.

The census is really a stocktaking. That is, it provides the information to enable the Government and others interested in the development of the country to formulate progressive policies for the happiness, comfort and prosperity of our people.

All the information supplied is strictly confidential, and the officers of the Government are subject to severe penalty if they disclose any of the information which is given to them by residents in the country, to any other than the Government.

Furthermore, it has nothing whatever to do with taxation, or military service, or compulsory school attendance, or immigration, or any such matter; and the Government itself cannot use it except for statistical totals.

The Government representative will put the same questions to all, and it is your duty as a resident of this country to answer promptly and truthfully. The Government is very anxious to avoid forcing anyone to answer these questions, but it is empowered to do so in the few cases where individuals may refuse.

Issued by

HON. H. H. STEVENS, Minister

DEPARTMENT OF TRADE AND COMMERCE — OTTAWA

## Cameron School Empire Day Program

Ideals of Citizenship and Patriotism Stressed in Interesting Program

Empire Day was observed by a splendidly arranged program under the direction of Miss Yull, principal, assisted by Miss Margaret Dunlop, Miss Ethel Dunlop and Miss Johnson, of the teaching staff of the public schools.

Wet weather prevented the holding of the outdoor part of the program, but was made up for by the numbers given in the class rooms. Cameron school has a large number of children whose parents are of foreign birth, and these exercises for several years have had as their special object the inculcating of ideals of Canadian citizenship.

Forest Ranger Boulton gave a short talk on forest conservation and H. T. Halliwell on Patriotism. Many of the parents were present, and the program by the children included flag drills, folk dances, violin solos by John Petroki and Alfred Moores, Kipling's poem "My Lady of the Snows" by Grace Orak, a dance by Hazel Kysway, "History of the Flag" by several of the boys and girls, and choruses by the classes.

A unique feature was the programs made up by the children and suitably colored with maple leaf, beavers and Canadian ensign decorations.

# Imagination Cannot Grasp The Progress The World May Make In The Vista Of Future Years

To those who sometimes express the wish that they might return to life one hundred years hence to see what the world looks like, the prophecy of Sir James Jeans that it will last for about one million million years makes their wish seem a very trivial thing.

It is only twelve thousand years since mankind was living in the stone age. It was only after the advent of the steam age in the early part of last century that scientific progress began to make any headway. Today, steam has very largely been displaced by electricity. And electricity itself is only in its infancy. Scientists do not even know what it is. Tomorrow, electricity may be a back number. When man harnesses the atom—and he is trying hard every day—the world may be completely revolutionized. A single atom may drive the new Cunard liner across the Atlantic in a few hours. Human beings may be projected in steel cases from here to Australia. All present day machinery may be as obsolete as the implements of primitive human beings.

Millions of years before the Jeans' prophecy is put to the test inhabitants of Earth may take trips to Mars and other planets, and vice versa. When we get there the Martians may have something to show us that we do not dream of. Perhaps they will discover these secrets before we do and surprise us by dropping in on us one day.

It all stagers imagination. Those who believe in reincarnation must rejoice at the prospects.

## Investigate Radium

Royal Inquiry Into Use Of Radium Treatment Will Be Held In Ontario

The appointment of Canon H. J. Cody, of Toronto, to head a royal inquiry, by the province of Ontario, into the use of radium as a treatment for cancer, was announced by Premier George S. Henry. As associates on the commission, he will have Professor J. C. McLennan, of the University of Toronto; Dr. W. T. Connell, of Queen's University, Kingston; Arthur Ford, managing editor of the London Free Press; and Dr. J. M. Robb, provincial minister of health.

## Many Orders For Bees

Over Thousand Applications For Packages Received From Saskatchewan

Considerable expansion of the bee-keeping industry in Saskatchewan is indicated by the orders received for packages of bees, according to R. M. Pugh, Provincial Apiarist. To date, 1,041 applications or orders have been received as compared with 600 at the corresponding date, last year. In predicting that importations would be at least 50 per cent. greater than last year, Mr. Pugh stated that a considerable proportion of the applications had been received from new beekeepers.

## Overseas Air Route

Negotiations are still proceeding between Imperial Airways and Canadian aviation concerns with a view to establishing a regular service with giant flying boats between England and Canada, according to the air correspondent of the London Daily Herald. Experts have already collected full details regarding meteorological conditions, the newspaper declares.

## Contrary To Opinion

Men are more inquisitive than women a Memphis newspaper editor found after queries to his information bureau had been totaled, and it was found that of the 205 questions asked, 125 were from men, and the remainder from women.

"Edo, come down, it is five o'clock!" "I don't care. I am working over-time today!"—Die Muskele, Vienna.

W. N. 1, 1931

## Times Have Been Harder

Only Thirty Years Ago and What a Difference

We still meet the party who exclaims, "These are tough times!" Tough times? Well, well! We read a reminiscence from 1900, the heyday of the bicycle, which notes that there was then in the country a bicycle to every seventy people. And in 1931 we are nearly at a figure of one automobile for every four people!

Horses? Umph, horses! In 1900, the census reported 25,000,000 horses and mules in the land, worth about \$100 each. Our present 25,000,000 registered automobiles are stated to be worth anyhow an average of \$350 each. And, take it or leave it—for so the 1930 U.S. statistical abstract declares—the country still possesses 19,000,000 horses and mules!

Tough times? What about roads. No need of figures. As we know roads today there were none in 1900—absolutely none, except railroads. The country had who in 1900 returned home from a trip to Detroit had an audience for a month to hear tell about it. Now, it isn't so tremendous to his home folks if a lad fly to New York and back! To work up a name as a traveller, go around the world at least twice!—Detroit News.

## Would Encourage Use Of Canadian Barley

To Replace Foreign Grown Corn In Livestock Feed

Steps taken to encourage use of Canadian barley in livestock feeding were described by Hon. Robert Weir, Minister of Agriculture, when the resolution of the Saskatchewan Board of Trade was referred to him. The resolution asks the government to insure the use of Canadian grown barley rather than foreign grown corn in livestock feeding.

Last fall, after tests had been conducted, the department here sent out tables showing how barley could be advantageously used for feeding both poultry and livestock. The tests proved barley to be very suitable as compared with corn.

One of the disadvantages has been that the 7,000,000 or 8,000,000 bushels of barley stored at the Head of the Lakes contained considerable other seeds including weed seeds. The farmers feeding livestock in the eastern part of Canada objected to this because of the danger of the weeds being spread on their own farms.

## Record Butterfat Test

High-Producing Jersey Cow Owned By Alberta Man

What is believed to be a record butterfat test for a cow of any age or breed is claimed by Norman S. Clarke of Didsbury, for the three-year-old Jersey cow "Waikiki Zenia's Fanny," which, in official R.O.P. test for the past 60 days, made a test of 9.8 per cent.

This high-producing cow is one of the choice animals purchased last year by Mr. Clarke in the state of Washington, and added to his herd at Didsbury. The butterfat content of the milk, which is exceptionally high for even a cow of this breed, is certified by F. King of the Dominion Government cow-testing staff.

At this rate, the Clarke cow, in her average flow of two gallons of milk per day, produces sufficient butterfat to make approximately 2½ pounds of butter.

## Use Of Combines

Big Saving Effected In Combine Method Of Harvesting Grain

According to the annual report of the Director of the Dominion Experimental Farms there were 85,000 tractors in Western Canada in 1929. The report adds: "The introduction of the combine method of harvesting grain has also reduced the time required and the cost of harvesting grain. Starting from one machine which was introduced and experimented with on the Dominion Experimental Station at Swift Current, Sask., in 1922, there are now located in the three provinces a total of 7,726 combines. These savings in labor have reduced the cost of growing crops. The use of the combine alone, as compared to the center and threshing method, has effected a saving of approximately 9 cents per bushel on a 20-bushel crop."

According to census figures just released, Java has 821 people per square mile.

Counterfeiting of coins was an underworld "racket" in provinces of the Roman Empire.

## WELL-KNOWN SUMMER RESORTS

It is said that Canadians are in the minority when it comes to knowing their own playgrounds. Be this as it may, figures reveal that the number of persons entering Canada for vacation purposes shows an annual increase. Canada has much to offer to the tourist in the way of resorts, and Jasper National Park, and Minkini in the Lake of the Woods region, are among those internationally well known for holiday seekers. The Canadian National Railways maintain high class hotels at these resorts—Jasper Park Lodge, open June 1st to September 30th, and Minkini Lodge, from June 20th to September 7th. The top scene is a view of Minkini Lodge; the bottom is a row of bungalows at Jasper.

## British Columbia Fruit

In 1930, British Columbia shipped 190,237 24 pint crates of strawberries, 95,229 pint crates of raspberries, and 9,000 pint crates of loganberries. In addition to this, the British Columbia cannery and jam manufacturers and the wineries put up 1,263 tons of strawberries; 547 tons of raspberries; 792 tons of loganberries, and 25,629 tons of tomatoes.

## Wheat Exports Greater

Wheat exports for the first eight months of the current crop year are roughly \$1,500,000 bushels, greater than during the same period of the previous crop year, the totals being, respectively, 161,589,899 bushels and 100,102,968 bushels.

A liner being built in Scotland will have 13 decks.

## FASHION

## WORLD HAPPENINGS BRIEFLY TOLD

Insurance indemnities are not liable to income tax, the Supreme Court of Canada has ruled.

Gold reserves of the world will be used in the future for international banking, Sir Thomas White predicts.

The Graf Zeppelin is being groomed to make six trans-Atlantic trips this summer, Martin Wronsky said.

The government does not intend making any changes to the Canada Grain Act in the present session, Hon. H. H. Stevens declared.

Cariboo, centre of Canada's greatest gold rush, has gold to the value of \$300,000,000 if it could be worked commercially and scientifically.

One of the paintings of Mrs. Melita Aitken, of Victoria, B.C., has been hung by the Royal Academy, London, England.

Termed too radical in character, the Senate defeated a bill which would have compelled citizens of Canada to carry an identification card bearing their photographs.

The women of the Dominion will present a huge petition to the League of Nations urging reduction in the manufacture of the instruments of warfare.

Canada sold to China 184,000 tons of wheat during the past year, while Australia sold 400,000 tons, according to figures given by Hon. H. H. Stevens.

Chief Buffalo Child Long Lance, Blackfoot Indian, of Calgary, Alta., has received a commercial pilot's license. He expects to engage in fur trading by air in the North West Territories.

### Airways Line Absorbed

Reported Change In Services Operating In Northern Alberta

Announcement was made at Montreal that Canadian Airways, Limited, had absorbed Commercial Airways of Edmonton, Limited, which inaugurated on December 10, 1929, a regular air mail service between Fort McMurray, Alberta, and Aklavik, North West Territories, at the mouth of the Mackenzie River.

In making the announcement G. C. Drury, secretary-treasurer of Canadian Airways, said the assets and liabilities of Commercial Airways were not being taken over, but that by arrangement with the government its air mail contract had been assumed by the Canadian Airways, which had purchased five of the company's smaller aeroplanes.

Capt. R. W. (Wop) May, outstanding western pilot, will now fly for Canadian Airways, it is announced.

### Silver Wires For Violin Bows

German States New Material Gives More Brilliant Tone

Violin bows, which have been strung with horsehair ever since the Middle Ages at least, may soon have to yield place to a new form of an old material. A German violinist has been experimenting with bows strung with silver wires of hair-like fineness, slightly roughened on their surfaces to set the violin strings vibrating. It is stated that a sensitiveness and brilliance of tone are achieved that exceed the effects usually obtained with the old horsehair.—Popular Science.

Testing Canadian Seed Grains  
A shipment of seed grains and grasses was recently sent from the University of Saskatchewan, Saskatoon, to a buyer in Chile, South America, who wishes to test out some of the improved varieties produced in Canada.

A machine has been invented to slice loaves of bread as they leave the ovens in large bakeries, the device being sealed in waxed paper packages for sale. This is said to save the waste of stale bread.

### TO KEEP THE Children Healthy

When they're "off colour" give them Dr. Carter's Little Liver Pills. Safe, acting gently on the bowels and liver, they soon bring back the healthy and healthy spirits that healthy youngsters should show.

## JAPANESE PRINCE AND BRIDE VISIT UNIVERSITY

Sir Robert Falconer, head of University of Toronto, points out features of interest to Prince and Princess Takamatsu at the Soldier's Tower during the royal honeymooners' tour of the University of Toronto.

### Vacation Tours By Plane

Light aeroplanes, in which amateur pilots combine a pleasant trip with visits to interesting places, are being built for tours in Europe. The tours will be led by experienced pilots and the planes will be kept together as much as possible. Because of the difference in machines, each pilot will be on his own to a certain extent, but will join the party at each stopping place, where guides will show the sights.

### Trade With Russia

Soviet Russia, with whom Canada has curtailed trade relations, sold this country goods valued at \$1,917,652 during the fiscal year ending last March. It was shown in a report issued recently by the Dominion Bureau of Statistics. At the same time, Canada sold Russia goods valued at \$568,100.

Glass made from natural gas is a new invention.

### JESUS IN GETHSEMANE

Golden Text: "Father if Thou be willing, remove this cup from me; nevertheless not My will, but Thine, be done."—Luke 22:42.  
Lesson: Luke 22:24-71.  
Devotional Reading: Psalm 130.

### Explanations and Comments

The Agony In The Garden, verses 39-44.—Jesus went, as His custom was, unto the Mount of Olives, for He oftentimes resorted thither with His disciples, John tells us (18:2). His disciples followed Him. When He reached the customary place of prayer, the Garden of Gethsemane, He turned to them and said, "Pray that ye enter not into temptation"—that ye be not tempted to forsake Me. When the moment of arrest came, prayer had made the Master calm and strong, and from lack of prayer His eleven disciples were frantic and cowardly.

And Jesus went a stone's throw away from His waiting disciples. "It was but a stone's throw, and yet an infinite gulf lay between Him and them. And so it is always in human life. We must needs go to the most sacred places of our life alone. We can hear no witnesses when the agony of life gathers around us. We must needs go beyond the kind gaze of friends, beyond their pity and their help, when the great transactions of the soul are to be achieved. In those few steps our Lord passed from the loud life of the world into the silent places of the infinite and the eternal."—W. J. Dawson.

And He knelt down and prayed, saying, "Father if Thou be willing, remove this cup from Me." The "cup" expresses the appointed portion. In Psalm 75:1 it is the portion of judgment; in Psalm 23:5, of mercy or blessing; here, of suffering and bearing in. Jesus heard no witness. "Nevertheless, not My will, but Thine be done," Jesus prayed. "As Thine was God and man, there were Christ and man, a human will and a divine will, and the former did not always conform itself to the latter without an inner struggle; compare John 5:30; 6:38."

"So let me follow after Thee, it may be to Gethsemane. To suffer, pray, and conquer still. Because I do my Father's will."

Friends Who Failed, verses 45, 46.—And when He rose up from His prayer, He came unto His disciples and found them sleeping from sorrow, Matthew and Mark speak of two other prayers, each following a turning to the disciples for sympathy. He had forewarned His disciples of the approaching tragedy. As he par took with them the Last Supper He told them explicitly that one of them would betray Him, that Peter would deny Him, that all would forsake Him. On entering the Garden He had asked the privileged three, Peter, James, and John, to keep guard while He went further on and prayed. How sorely He needed the comfort of their sympathetic presence. Yet they failed Him just when He needed them the most. On returning He found them sleeping from sorrow. A strange complexion of words, yet no one will have difficulty in understanding them who has ever experienced the stupefaction which kind nature sends to the senses when he has borne the utmost that can be borne.

"Why sleep ye?" Jesus said to His disciples, "rise and pray that ye enter not into temptation."

Artificial worms that bear a remarkable resemblance to the genuine have been made for fishermen. They can be cut into desired lengths.

### Norway Would Stop

#### Wilkins' Sub Journey

Government Considers Expedition Unnecessary Risk Of Human Life

The Norwegian Government may take active measures to prevent Captain Sir Hubert Wilkins from making his projected journey to the north pole in a submarine, it was stated in an Exchange Telegraph despatch from Oslo.

The message quoted the Oslo newspaper "Aftenbladet" as saying the government considers the expedition as an "unnecessary risk of human life." If the Wilkins expedition calls at Norway en route to the pole, the despatch said, the government plans to enforce the regulations enabling it to exercise definite control over all Arctic expeditions starting from that country.

### Mechanical Eye For Airmen

New Device Can Penetrate Average Fog For Two Miles

A new mechanical eye which sees two miles through average fog was described to the Engineers' Club, at Dayton, Ohio, by W. F. Westerdorp of the General Electric Research laboratory.

The apparatus is designed to sit on the tail of an airplane, sight an airway light through the fog and reproduce on the aviator's dash a synthetic beacon. It has not been "up" yet, but it has done its stuff successfully through two miles of ground fog.

### Second Hundred Years Hardest

That the second hundred years is the hardest is the opinion of Miss Ann Stansall of Mansfield, England, when she celebrated her 101st birthday recently. She said that since she had passed the century mark she had been attended for the first time by a doctor, had taken her first dose of medicine and had put the washing out for the first time. Then she took her first vacation trip.

"Why is it that the modern young man never gets up at dawn to serenade the girl of his heart?" asks a woman novelist. Probably because the girl of his heart isn't home by then.

A scientist estimates that the earth's atmosphere contains 4,000,000,000,000 tons of nitrogen.

### Have Completed Trials

Canada's Two New Destroyers Will Soon Be In Commission

Canada's two new destroyers, the "Skeena" and "Saguenay," have completed their power trials.

The "Saguenay," destined for service on the eastern seaboard, will leave Portsmouth for Canada during June under Commander Percy Nelles.

The "Skeena," named after the river in British Columbia, is destined for service on the Pacific Coast, and will leave Portsmouth for the Pacific about 10 days after the "Saguenay," under Commander V. G. Brodeur.

The new destroyers will replace the "Champlain" and "Vancouver," loaned to Canada by the Royal Navy during the construction of the new vessels.

### Jungle Broadcast

Roar Of Wild Animals In Africa Heard By Radio In England

A lion roaring in the jungle in British East Africa was heard by British wireless listeners with short-wave receivers recently, when a broadcast from a microphone in the wilds of Kenya was relayed from Nairobi on a wavelength of 49.5 metres.

The microphone was installed at a jungle drinking pool, and although the lion's performance did not come up to expectations he did not seem stricken with microphone shyness—the calls of wild birds and the grunting of animals formed a weird chorus. It was fascinating to realize that the sounds came actually from the real jungle and not from an enclosed zoo.

### The Loser's Move

In a newspaper appeared the following advertisement: "The man who picked up my wallet in Fore Street was recognized. He is requested to return it." The next day this reply was published: "The recognized man who picked up your wallet requests the loser to call at any time and collect it."

Lawyer (reading very rich lady's will)—And to my nephew, Percy, for his kindness in calling every week to feed my darling goldfish, I leave my darling goldfish.

Twenty-one times as much plant food is removed yearly by soil erosion as by crops.

## Personal and Local

Mrs. Sisk returned last evening from several weeks visit with her parents at New Denver, B. C.

Mr. and Mrs. Sydney C. Jenkins of Calgary, spent the holiday visiting their daughter, Mrs. D. O. Macko and Mr. Macko.

A store's advertising indicates what kind of business it is carrying on. A live display advert, in sufficiently large space to intelligently impress people usually indicates big business. It creates buyer interest.

Mr. Melville Anderson, of Anderson & McLean, eight specialists of Calgary, announces next visit to G. R. Powell's, Coleman, Tuesday, June 2nd. 20 years experience and regular visits assures you of satisfaction in all optical work.

Coleman Players gave their play "It Pays to Advertise" last Friday night at Corbin, and were given an enthusiastic greeting. The play was thoroughly enjoyed by a crowded house, and at the conclusion the players were entertained at a social and dance by the Corbin Community Club, under whose auspices they played.

Mr. Shields of West Coleman is at present at Blind River, Ont., where he was called by the serious illness of his father.

"Viennese Nights" is the weekend picture at the Palace, and Monday and Tuesday the celebrated Ruth Chatterton in "The Right to Love," a Paramount feature.

J. E. Gillis, well-known barrister of Blairmore, was elected as state deputy for Alberta at the annual convention of the Knights of Columbus state council held in Edmonton on Saturday.

Mrs. S. Moores and Gladys went to Calgary last week to attend a party given by friends in honor of the 21st birthday of their daughter Mae, who is a nurse-in-training at the general hospital.

Ledien Kleyko call particular attention to tobaccos and cigarettes in their display advertisement on the front page. Extra good values in all groceries at the busy corner store. Buy here and save. 38-1

Mr. Lancaster, census commissioner for East Kootenay, called on W. Bell at the Grand Union hotel last Saturday. He had completed the grand circle tour from Fernie to Golden, east to Calgary and home via the Crow's Nest Pass. The census taking commences on June 1st.

The next whist drive of Holy Ghost ladies aid will be held on Thursday next, June 4, and the last of the season will be held on Thursday, June 18. A grand aggregate prize will be awarded on June 18, which will likely be a cash prize. The table runner and scarf, for which tickets are being sold, will be awarded at the June 18 whist drive to the holder of the lucky number. 38-1

A meeting of men of St. Alban's parish was held last evening, and a branch formed of Macleod Deservatory Laymen's Association. Sidney C. Short is president; Dr. R. P. Borden, hon. pres.; W. L. Borrows, sec.; D. Hoyle, treas.; J. C. Creighton, J. Poxton, W. Coates, executive. Blairmore parish has also formed a branch, and a joint meeting will be held at Blairmore on June 10th at 8 p. m.

Call at The Journal office for a demonstration of the new Remington portable typewriter. They are very useful in the office, home or school, a wonderful help to all who write. Not to use a typewriter is a handicap. You can quickly learn from the instruction book which accompanies each machine. These machines, in handsome two-tone color effects, have the very latest improvements. Writing is a pleasure with a Remington portable.

The second series of moving pictures of Mr. T. M. Burnett's world cruise were shown to members of the Masonic lodge, their families and friends on Thursday evening, including views of life in Siam, Japan, China, the Hawaiian Islands and Cuba. Pictures taken during the trip through the Panama canal were also included, making a very interesting review of the many countries visited. The evening concluded with a social and dance at which a number of guests were present.

Brick Bell and Joe Spiveak were "all set" to go to Banff for the holiday. Brick was pleasantly anticipating meeting his one and only, while Joe was joyfully contemplating wallowing in the sulphur pool at the cave and basin. But, alas!—and slack!—Even two slack! Unkind fate intervened. The night before they were to start Brick's car was crowded into the ditch. It was such a sad looking mess that Brick had no alternative but to cancel the trip, whilst a beautifully colored eye was not considered an asset to impress his lady-love. So sympathetic did lady shoppers feel towards the two usually exuberant young men filling grocery orders on Saturday, that they were tempted to send them a bunch of forget me nots or daisies to fill the aching void in their hearts.

Car casualties on Victoria Day included a collision in the Frank slide and a badly smashed McLaughlin in the ditch east of Coleman. No serious injuries to occupants were reported.
